Protective Sleeve / Threaded Protector

About Protective Sleeve:

M.H.T.C. Protective Sleeves are manufactured from a special blend of material to provide "soft" elastic cushioning characteristics to protect the part surfaces from damage, chipping and abrasion during handling and transport.

Application:

- Engineering Components like Gear, Shaft, Dies & Tools
- Automobile & Industrial Engineering Spares
- Gas Cylinders, Bottling
- Filtration

Advantage:

- Made from High Grade Polyethylene having characteristics of High Elasticity & Tensile Strength.
- Easy to apply on irregular parts
- To protect the parts from Chipping, Abrasion and Corrosion
- Reusable and Long-Lasting.
